- Oct. 31 End of 1<sup>st</sup> Quarter

### Concerns:

-need a science & math teacher

**“School-age children spend 70% of their waking hours (including weekends and holidays) outside of school”**

(Cited in *under resourced learners*, 2008, p. 113).

In the book *You Can't Send a Duck to Eagle School* (2007), the author cites Kirshenbaum

**“First you *plug the leaks*: learn to recognize what drains your energy...life situations, toxic people, or habits such as worry, indecision or guilt. Second, you *identify what fills your tank* --- pleasure, solitude, anticipation, or fun---and give yourself more”**

(Anderson, p. 82).
